FELT FLOOR PROTECTORS

safeglides®

FELT FLOOR PROTECTORS

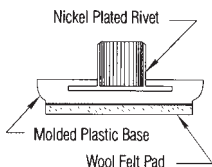

Protect Your Flooring Investment

Safeglides protect beautiful floors by virtually eliminating scratching. The wool felt glides provide an excellent buffer to keep furniture moving across the floor easily.

The wool felt protectors keep wood, vinyl, tile, stone, terrazzo and marble flooring looking great longer. The glides are designed for contemporary and antique wood furniture as well as wicker and rattan.

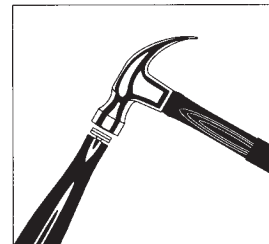

Long Wearing

Safeglides are made with a patented, nickel plated rivet. The wool felt pad is renowned for its long wearing ability.

Easy To Install

Designed for easy installation, Safeglides are gently tapped in place with a hammer. The unique round design is safer for your furniture than the nail-in type.

Three sizes of the tap-in glides are available: 7/8", 1", 1 1/2" - in brown or white.

Special Sizes and Varieties

Snapglides

Fit the common 1 1/4" brass-plated swivel glides.

Stemglides

Designed for Breuer style chairs (horizontal tube chairs). Simply remove existing clips and tap into holes.

Self-adhesive

Works where the tap-in variety won't. Just peel off backing and apply to clean, dry surface.
